

Jo Likes

- Sex with men, sex with women, sex with couples
- Men (as well as her women) should not have much body or facial hair (this is a hang over from the days when she had to vacuum the bed when her husband left for work),
- Men who are fit and we don't mean Mel Gibson (but if he reads this please call) but please be in the right proportions (height/weight) and who just love to have fun.
- Jo is very Bi, but she loves cocks as well, and has to finish each session with a good hard fuck preferably bareback as another love is cum.
- Jo prefers to play with David in the same room, as she likes to watch and be watched by him.
- Occasionally she likes to have small groups of men (3-6) to play with as she can be a greedy girl.
- Anal sex is not usually on the menu, don't expect to just go for it on the night, discuss it before trying, or you may well get a thump.
- Jo loves giving head, and to swallow cum; she hates it though when men hold her head and try and force her to do deep throat - she has been known to bite the cocks of men who persist in doing this. She also loves to be given oral to completion as a starter.
- Another like is to eat a girl out after David or her partner has cum in her, or to be eaten out by someone after a guy has cum in her.
- Her favourite position for fucking is doggy fashion.
- Double penetration, spit-roast, multiple cocks are much enjoyed.
- Jo is looking for men aged between 20 and 40, no older. This is because she already has an older model (David) at home,
- One of the biggest disappointments we have had since we moved to Spain is the number of guys who cannot last the distance. Jo does not expect to have sexual athletes, but she does like men who can fuck her until she has an orgasm, rather than enter her, take half a dozen strokes and cum. We call these guys "30 second men".
- Jo smokes - she keeps trying to give up, but starts again when she has a few too many drinks!
